Adair County Health System Flies Donate Life Flag

Across the nation, thousands of Donate Life flags will be displayed as part of an organ and tissue donor awareness initiative. Adair County Health System is part of the campaign. A flag will be flown in the month of April at Adair County Memorial Hospital. The goal of this effort is to honor and celebrate the hundreds of thousands of donors and recipients whose lives have been affected by organ, eye and tissue donation. Iowa Donor Network, the organ procurement organization spearheading this campaign, invites Iowans to visit their website and register their intentions to be donors, www.IowaDonorRegistry.org.
