Adair County Health System bringing back Buckle Up Right Program

Starting in August of 2011, Adair County Health System will be offering the Buckle Up Right program to the public. Kelly Oder of ACHS is a Certified Child Passenger Technician that will be able to help parents ensure that their children are secured correctly in the child passenger safety seat. Adair County Health System believes that is very important to make sure our children are traveling safely at all times!

Parents that would like to know if their child's car seat has been recalled, wonder if they are using the right type for age and weight, or if it is expired, or just want to know how to install the car seat, should contact Kelly by calling 641-743-2123. Some guidelines and restrictions apply to the Buckle Up Right Program.

This program is brought back by the help of the Adair County Health Foundation, Adair County Memorial Hospital Auxiliary, Adair County Mutual Insurance Association, Don Carlos Insurance, Empowering Adair County Foundation, Greenfield Optimist Club, DeCAT, and Town and Country Insurance.
